**Subject:** Settlement

As an American suffering for the current state of the economy, in need of a job and work opportunities, I ask that you kindly settle the dispute with Microsoft. I don't believe we are going to see the economy bouncing back unless these outstanding legal problems with our major corporations are put behind us, and the companies are allowed to go back to work and invest in new research and development.: and their products start selling and they start hiring more people.

Respectfully yours,

Arsenio Calle
